An introduction to the Tenon Price List

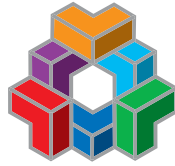

Tenon Partition Systems is a leading brand of high quality partitioning products. The Tenon Price list encompasses the entire spectrum of demountable and relocatable office partition systems. Whatever the building or refurbishment project demands, be it fire or acoustic performance or a multifunctional specification, there is a Tenon system designed to suit the purpose.

As the manufacturer of one of the most comprehensive portfolio's for the interiors market Tenon offer a family of products that will cater for all corporate environments, from manufacturing installations to the most prestigious office complexes.

All products are available throughout the UK by using the network of CPD Distribution plc branches and many items are available on an ex stock or next day delivery basis.

Each CPD branch is equipped with easy-calc 3D which is Europe's most advanced estimating software and exclusive to Tenon Partitions, technical specialists and literature to help in the choice of the right partitioning for each project.

Tenon Partitions System overview

Tenon FlexPlus is a cost effective, demountable and relocatable modular partition system that is quick and easy to install.

Fire and Sound is a high performance, demountable and relocatable partition system offering certified fire and acoustic performance.

Vitrage is a single or double glazed partition system that combines function with the clear aesthetic benefits of silicone glazing. Double glazed Vitrage (dB) can achieve up to 47dB (Rw) and both single and double glazing can be integrated with 77mm Fire & Sound.

Tenon Ovation is a state of the art made to measure demountable and relocatable partition system, designed to offer rapid on site installation.

Tenon Scion combines the visual appeal and luxurious finish of solid, natural wood in a fully demountable and relocatable partition system.

A complete range of washroom solutions ranging from basic cubicles through to vanity units, panelling and integrated plumbing systems (IPS).

Operable Walls offers an unrivalled choice of quality engineered moveable partitions that provide effective space management.

Wall Store is a modular floor to ceiling, high density office storage system tailored to a bespoke design to optimise valuable office space.

Wallstore pak is a modular, high density office storage system stocked in two heights, maple finish and available to buy off the shelf.

Option 3	<p>easy-calc 3D</p> <ul style="list-style-type: none"> • Quick quotes • Free software updates • Estimating print outs • Import drawings and plans • Draw layouts • Create cutting lists <p>PLUS Materials & furniture image library PLUS 3D colour rendered project presentations</p>

easy-calc for easy estimates

Tenon easy-calc is the new software that exclusively combines the very latest versions of Logiwall, europe's most advanced partition estimating program, with Tenon's product database. The result is an intuitive, easy to use package that can create a detailed and accurate costing within a matter of minutes.

Design 3D partitioning layouts

Both easy-calc and easy-calc 3D can output material listings, cutting lists, elevation and plan drawings, with the latter a valuable tool when used during fit out to reduce errors on site.

For the optimum in project presentation materials, easy-calc 3D also outputs sophisticated variable view, rendered 3D images of the partition layout.

Included with the 3D software is an extensive library of furniture and surface materials which allows the designer to create 'real life' views of the finished project. Easy-calc 3D equips the user with a great sales and marketing advantage when tendering for projects.
