

Tenon Vitrage offers visual simplicity while still maintaining the privacy of an individual office

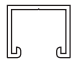

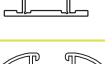

Tenon Vitrage is a partition system that combines function with the clear, aesthetic benefits of silicone glazing. Using either single or double glazing and a minimum number of aluminium framing sections, Vitrage provides an office divide that allows unhindered vision while still maintaining the privacy of individual offices.

Using either 10mm or 12mm toughened glass depending on the height of the partitioning; glazing is achieved with the use of a standard Tenon crystal clear glazing gaskets that eliminates the need for the use of silicone around the perimeter of the system. Vertical silicone joints maintain the visual simplicity of the product, whilst crystal clear plastic jointing sections may be used to provide dry joints between panels if preferred.

To maintain the open feel of the product, frameless doors are fitted within the system using floor pivot, patch fittings, floor springs & sliding door gear. If standard timber veneered doors are required these are accommodated within standard Tenon Fire & Sound 77mm doorframe profiles, which are compatible with Vitrage sections.

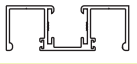

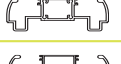

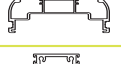

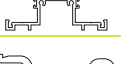

Where required and to comply with building regulations, fully glazed panels may have manifestation films applied to them simply to highlight the presence of the partition or to create individual designs and logos. Solid intermediate walls are constructed from standard components that offer the full range of Tenon joint and trim options.

Product Code	Description	Profile	Length/Size (mm)	Colour Price £ Each
--------------	-------------	---------	------------------	---------------------

Vitrage - Single Glazing				
TV611/30	32 x 25mm aluminium head channel/wall abutment section		3000	18.08
TV611/36			3600	21.74
TV612/27	Vitrage S/G to 77 mm Fire & Sound/Solid conversion post		2700	59.48
TV612/30			3000	66.08
TV614/36	19 x 19mm aluminium base angle		3600	12.75
TV615/36	32mm aluminium infill/capping section for use with TV611		3600	12.75
TV620/30	37 x 77mm aluminium S/G doorframe post		3000	57.39
TV623/36	Single glazing two part base section use with TV625		3600	16.50
TV625/36	Two part base section trim for use with TV623 or TV624		3600	6.46

All the above aluminium components that make up the Vitrage Single Glazed system are available for purchase separately in a powder coated paint finish only.

CPD also offer the full Vitrage Single Glazed system on a "supply and install" basis. With this option CPD take responsibility for the entire installation of the system including the initial site survey and measure through to full installation of the aluminium components, glass and doors sets, cleaning of the glass and the application of manifestation (if required).

Vitrage (dB) - Double Glazing				
TV616/30	30 x 77mm aluminium D/G head channel/wall abutment section		3000	POA
TV618/30	37 x 77mm aluminium D/G doorframe post		3000	POA
TV619/30	Vitrage D/G to 77 mm Fire & Sound/Solid conversion post		3000	POA
TV624/36	Double glazing two part base section use with TV625		3600	POA
TV625/36	Two part base section trim for use with TV623 or TV624		3600	6.09
TV661	2700 x 900 x 10/12mm single door frame pack		Each	POA
TV662	2700 x 1800 x 10/12mm double door frame pack		Each	POA
TV681	Inner gasket for use with D/G		(per m)	POA
TF311/30	77mm aluminium head channel/wall abutment		3000	31.11
TF311/36			3600	37.28

The above aluminium components that are used in the construction of the Vitrage dB Double Glazed system **are not available separately as individual components** but can only be purchased from CPD when supplied as part of the full Vitrage dB System including the 10mm or 12mm glass. The aluminium perimeter components and any aluminium door frames will be supplied by CPD but must be fitted by the contractor prior to CPD supplying the glass.

The glass can be supplied on either a "supply only" or supply and fit" basis as follows :-

Supply Only - The customer must supply (in writing) the actual cutting sizes for the glass which will then be delivered to site by CPD to a single designated Ground Floor drop off point in one delivery to site for subsequent uplifting and fitting by others.

Supply and Fit - CPD will carry out the site survey and measure, subsequent delivery, uplifting and loading to working area, installation of glass, final cleaning of the glass and application of manifestation (if required).

TV6420	90 degree clear dry joint for 10/10.8mm glass		3000	POA
TV6520	90 degree clear dry joint for 12/12.8mm glass		3000	POA
TV6440	135 degree clear dry joint for 10/10.8mm glass		3000	POA
TV6540	135 degree clear dry joint for 12/12.8mm glass		3000	POA
TV6460	90 degree 3 way clear dry joint for 10/10.8mm glass		3000	POA
TV6560	90 degree 3 way clear dry joint for 12/12.8mm glass		3000	POA

Glass Doors / Sliding Glass Doors

Glass Doors are available to match not only Tenon Vitrage but also the full range of Tenon partitions systems. Doors are available on a supply only or supply and fit basis, doors are available in either 10mm or 12 mm toughened glass to suit the partition height and come complete with all the necessary patch fittings and ironmongery.

Sliding Glass Doors are available as part of the Tenon Vitrage Range and provide a high quality, aesthetically pleasing and space efficient finish to the system. The stainless steel sliding mechanism operates effortlessly, with door size and thickness to suit most design briefs and site conditions. Please contact your local CPD branch for details and prices or visit our website at www.tenonpartitions.co.uk.
